SAFETY PARTITIONS

Impact tested safety partitions protect the most important asset: you

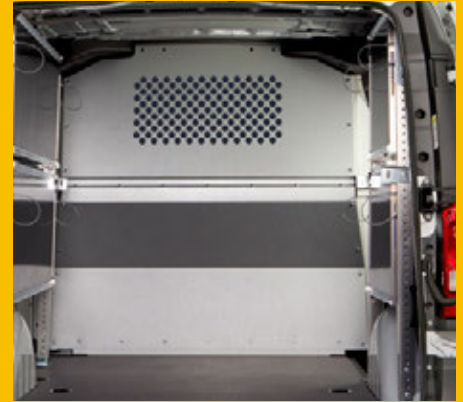

Ranger safety partitions provide a solid and secure barrier between the occupants of the van and the cargo.

Built from heavy gauge steel, aluminum and thermoformed ABS and polycarbonate, they are designed for maximum impact resistance and uphold a standard of safety set only by Ranger products.

Ranger partitions also provide a more comfortable environment for the driver by giving more seat travel and by not rattling as the vehicle drives down the road.
